

Dear family

Welcome to reception. My name is Talon - I love St. James's Primary School. In this letter I am going to be telling you how fun it is to be in this school.

I think it is fun and a jolly place to be because we are here to help others and we love new people just like you.

Our school values are important to us, we always follow them. For example, Respect: we must respect the environment and each other. Friendship: we can choose who are our friends and show friendship to others. Kindness: we shall be kind to the plants and to one and other. Courage: we shall support each other to do our best.

As you go through school, you will be doing these subjects: English, maths, RE, science, art and more! Sometimes we also do fun things like going down to forest school (part of the school field) and do arts and crafts.

In reception you will be going down to forest school a lot, learning through play: like cooking marshmallows, learning how to make hot chocolate, making tools, making a fire and making a den.

I liked all the teachers and teaching assistants that taught me because they are friendly. Everyone is kind to all pupils but the two people that I really liked the most were Mr. Waterhouse and Miss Stonelake they are nicest people in the world, and I had Mr. Waterhouse twice!

I hope I have made your child excited for their big journey at this school.

From Talon
